FINANCIAL UPDATE Q2 FY2022 / July 2022

#### Safe harbor statement

This presentation includes express and implied "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. In some cases, you can identify forward-looking statements by terms such as "anticipate," "believe," "estimate," "expect," "intend," "may," "might," "project," "will," "would," "should," "could," "can," "predict," "potential," "target," "explore," "continue," or the negative of these terms, and similar expressions intended to identify forward-looking statements. However, not all forward-looking statements contain these identifying words. These statements may relate to our market size and growth strategy, our estimated and projected costs, margins, revenue, expenditures and growth rates, our future results of operations or financial condition, our plans and objectives for future operations, growth, initiatives, or strategies. By their nature, these statements are subject to numerous uncertainties and risks, including factors beyond our control, that could cause actual results, performance or achievement to differ materially and adversely from those anticipated or implied in the statements, including: our future financial performance, including our revenue, cost of revenue, gross profit, operating expenses, ability to generate positive cash flow, and ability to be profitable; our ability to grow at or near historical growth rates; anticipated technology trends, such as the use of and demand for experience management software; our ability to attract and retain customers to use our products; our ability to respond to and overcome challenges brought by the COVID-19 pandemic; our ability to attract enterprises and international organizations as customers for our products; our ability to expand our network with content consulting partners, delivery partners, and technology partners; the evolution of technology affecting our products and markets; our ability to introduce new products and enhance existing products and to compete effectively with competitors; our ability to successfully enter into new markets and manage our international expansion; the attraction and retention of qualified employees and key personnel; our ability to effectively manage our growth and future expenses and maintain our corporate culture; our anticipated investments in sales and marketing and research and development; our ability to maintain, protect, and enhance our intellectual property rights; our ability to successfully defend litigation brought against us; our ability to maintain data privacy and data security; the sufficiency of our cash and cash equivalents to meet our liquidity needs; our ability to comply with modified or new laws and regulations applying to our business; and our reduced ability to leverage resources at SAP as an independent company from SAP. Additional risks and uncertainties that could cause actual outcomes and results to differ materially from those contemplated by the forward-looking statements are or will be included under the caption "Risk Factors" and elsewhere in our Annual Report on Form 10-K and Quarterly Reports on Form 10-Q that we file with the Securities and Exchange Commission. Forward-looking statements speak only as of the date the statements are made and are based on information available to us at the time those statements are made and/or management's good faith belief as of that time with respect to future events. We assume no obligation to update forward-looking statements to reflect events or circumstances after the date they were made, except as required by law.

This presentation also contains estimates and other statistical data made by independent parties and by us relating to market size and growth and other data about our industry. This data involves a number of assumptions and limitations, and you are cautioned not to give undue weight to such estimates. In addition, projections, assumptions, and estimates of our future performance and the future performance of the markets in which we compete are necessarily subject to a high degree of uncertainty and risk.

The trademarks included herein are the property of the owners thereof and are used for reference purposes only. Such use should not be construed as an endorsement of such products or services.

To supplement our financial results, which are prepared and presented in accordance with U.S. generally accepted accounting principles ("GAAP"), we use certain non-GAAP financial measures, as described below, to understand and evaluate our core operating performance. These non-GAAP financial measures, which may be different than similarly-titled measures used by other companies, are presented to enhance investors' overall understanding of our financial performance and should not be considered a substitute for, or superior to, the financial information prepared and presented in accordance with GAAP. We believe that these non-GAAP financial measures provide useful information about our financial performance, enhance the overall understanding of our past performance and future prospects, and allow for greater transparency with respect to important metrics used by our management for financial and operational decision-making. We are presenting these non-GAAP measures to assist investors in seeing our financial performance using a management view, and because we believe that these measures provide an additional tool for investors to use in comparing our core financial performance over multiple periods with other companies in our industry. You should consider non-GAAP results alongside other financial performance measures and results presented in accordance with GAAP. In addition, in evaluating non-GAAP results, you should be aware that in the future we will incur expenses such as those that are the subject of adjustments in deriving non-GAAP results and you should not infer from our non-GAAP results will not be affected by these expenses or any unusual or non-recurring items. Non-GAAP gross profit, non-GAAP gross margin, non-GAAP operating margin, non-GAAP net income (loss), non-GAAP into the fair value of our distribution liability for our tax sharing agreement with SAP, and the tax impact of the non-GAAP

### Continued revenue growth at scale

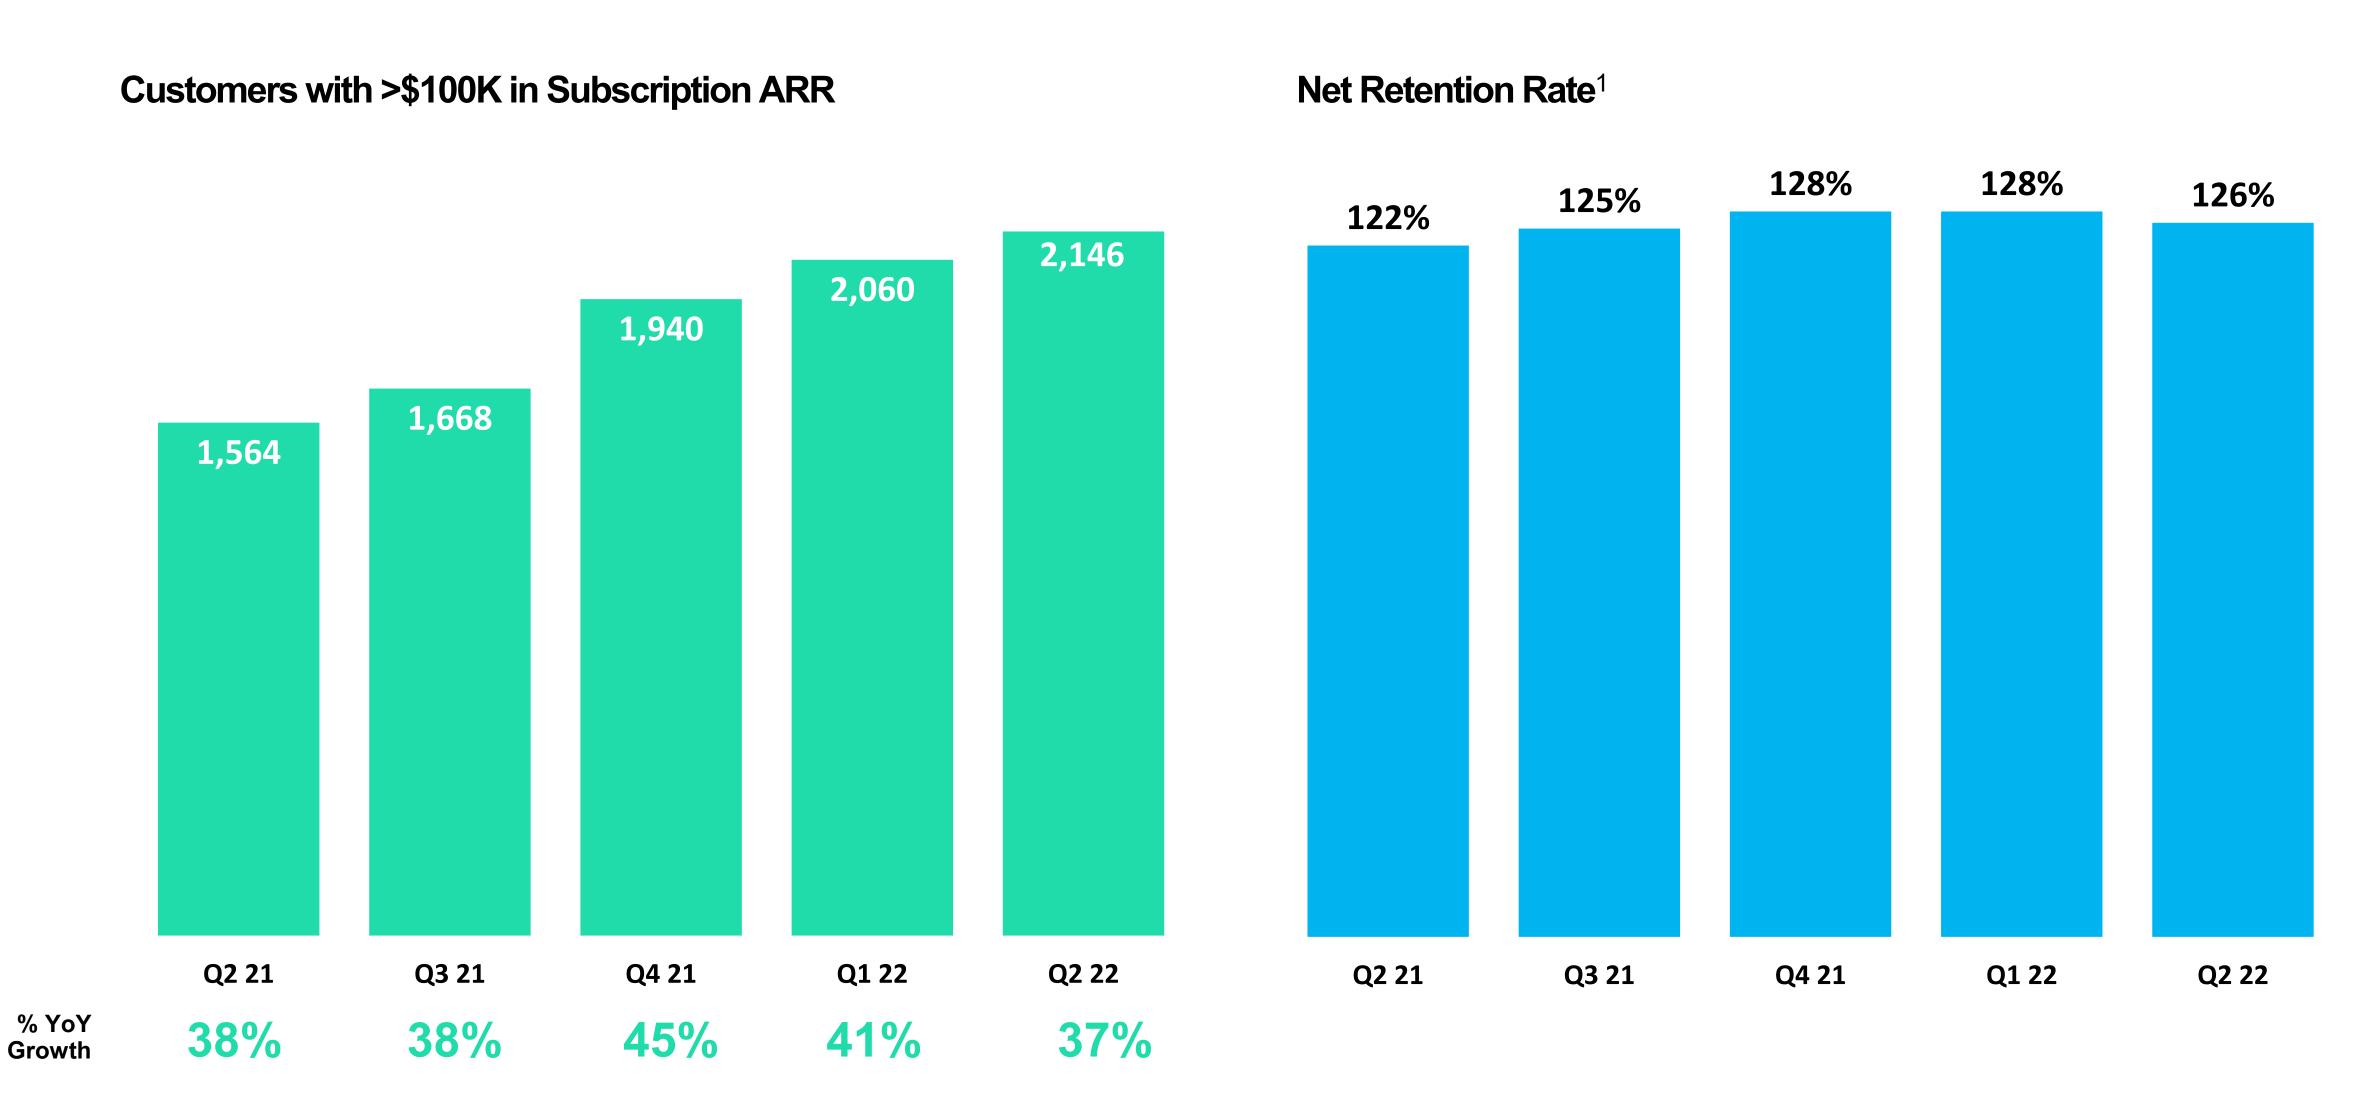

### Historical remaining performance obligations<sup>1</sup>

in \$MM

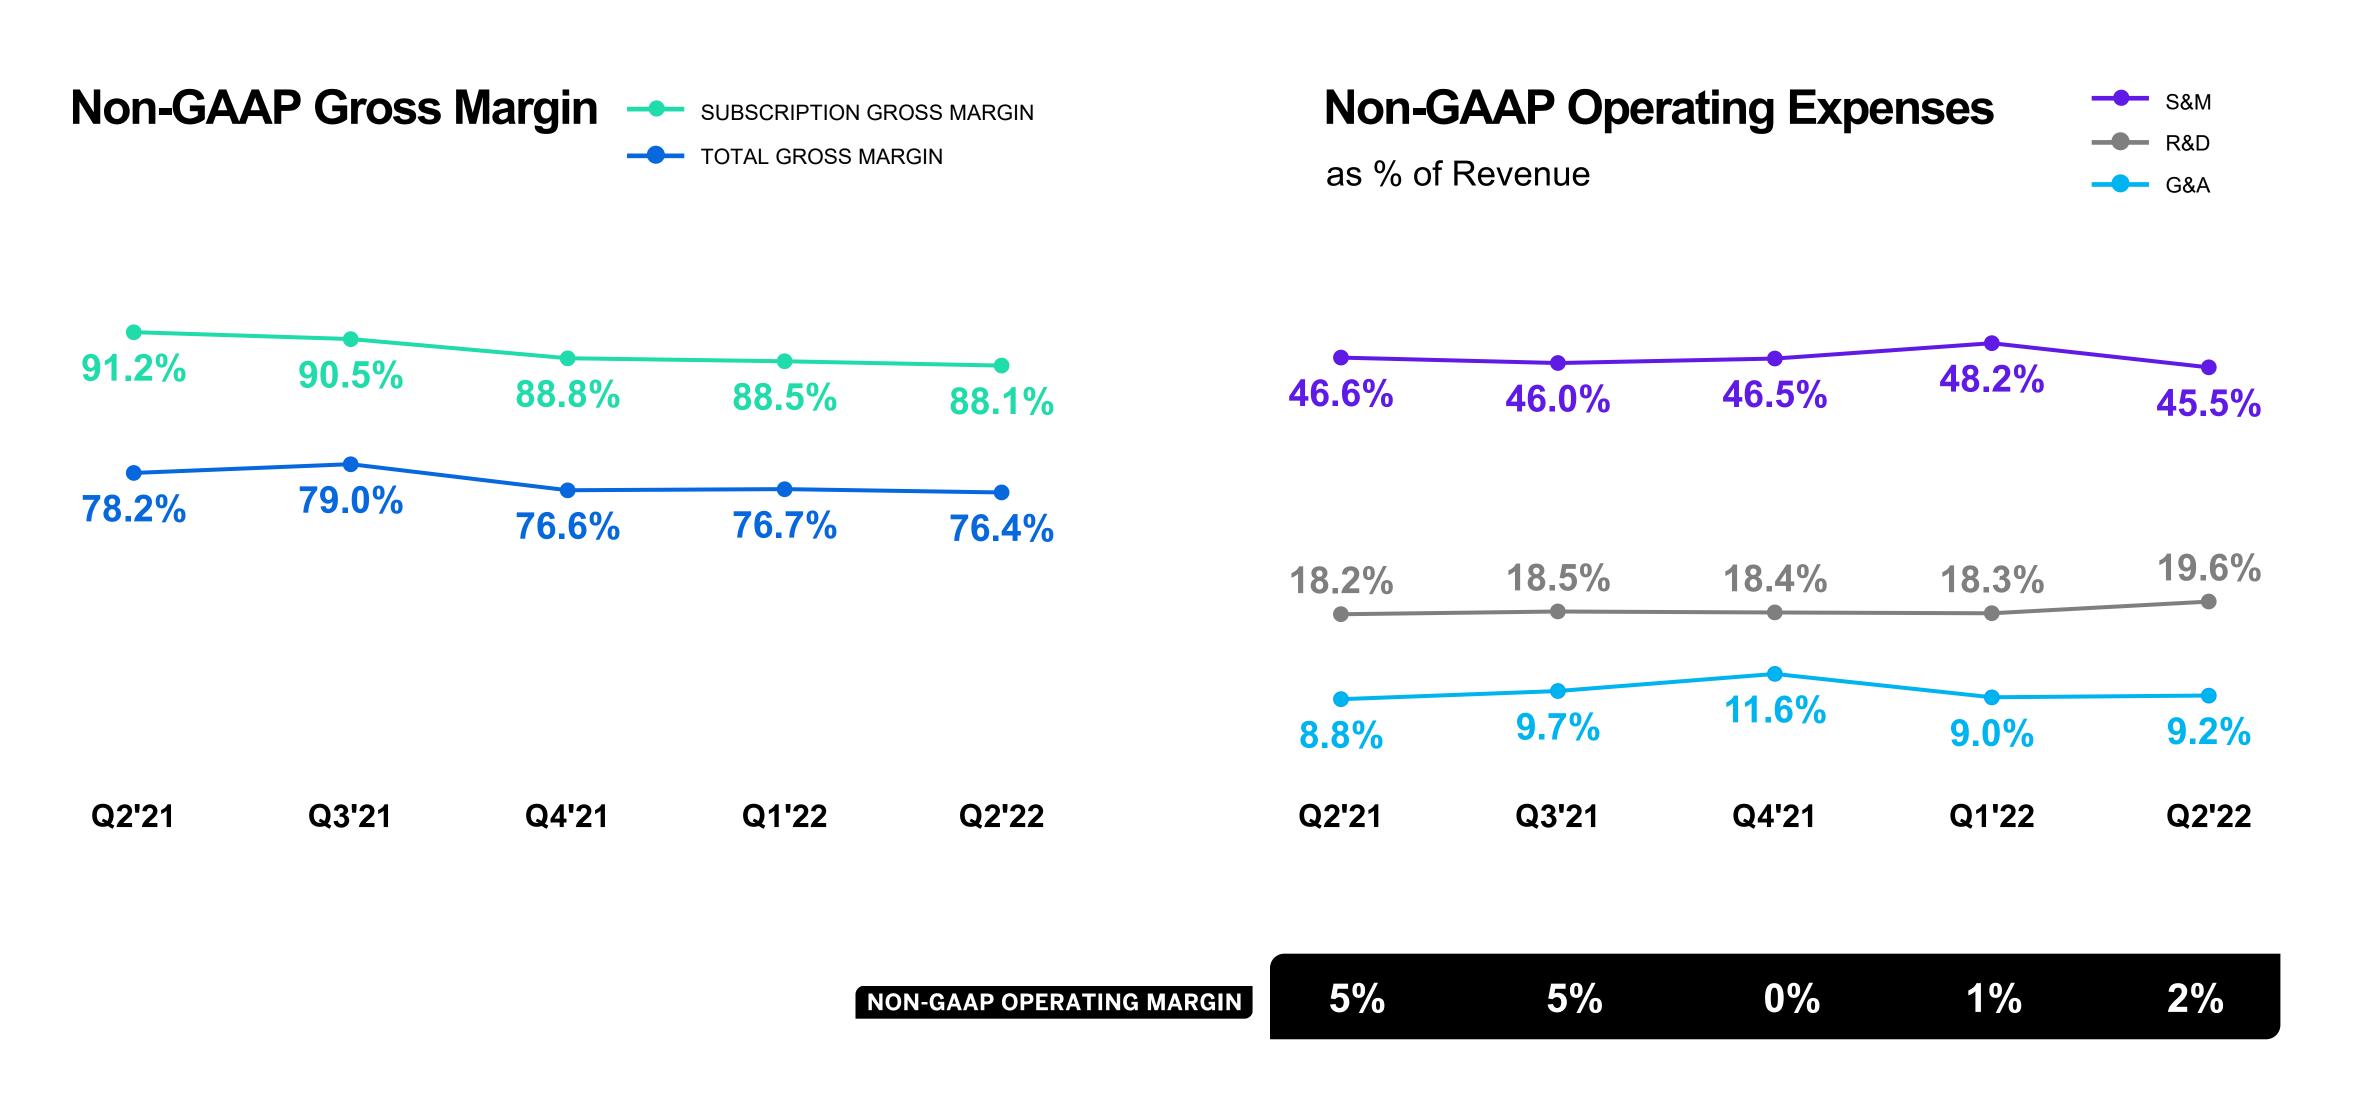

<sup>1—</sup>Remaining performance obligations represent all contracted future revenue that has not yet been recognized, including both deferred revenue and non-cancelable contracted amounts that will be invoiced and recognized as revenue in future periods 2—Defined as RPOs expected to be recognized as revenue in next 12 months

# Growing large customers who still represent small percentage of overall customer base

<sup>1—</sup>Net retention rate is calculated using subscription revenue. We first calculate the subscription revenue in one quarter from a cohort of customers that were customers at the beginning of the same quarter in the prior fiscal year, or cohort customers. We repeat this calculation for each quarter in the trailing four-quarter period. The numerator for net retention rate is the sum of subscription revenue from cohort customers for the four most recent quarters, or numerator period, and the denominator is the sum of subscription revenue from cohort customers for the four quarters preceding the numerator period.

### Steady margins while investing for growth

Please refer to the Appendix for Non-GAAP to GAAP reconciliation

### Guidance summary

Q3 2022	Quarterly Guidance	Increase Y/Y (At Midpoint)
Subscription Revenue	\$303M - \$305M	38%
Total Revenue	\$358M - \$360M	32%
Non-GAAP Operating Margin	1.5% – 2.5%	(291)bps
Non-GAAP Net Income (Loss) Per Share	(\$0.02) - (\$0.04)	-
	Assuming 595M weighted average shares outstanding	

Full-Year 2022	Full-Year Guidance	Increase Y/Y (At Midpoint)
Subscription Revenue	\$1,202M - \$1,206M	38%
Total Revenue	\$1,422M - \$1,426M	32%
Non-GAAP Operating Margin	1.5% – 3%	(72)Bps
Non-GAAP Net Income Per Share	(\$0.07) — (\$0.09)	_
	Assuming 600M weighted average shares outstanding

1.During the three months ended June 30, 2022, employer payroll tax on employee stock transactions reported in cost of revenue was \$0.3 million and employer payroll tax reported in operating expenses was \$2.5 million. Employer payroll tax on employee stock transactions was not material during the three months ended June 30, 2021. The amount of employer payroll tax-related items on employee stock transactions is dependent on our stock price and other factors that are beyond our control and do not correlate with the operation of the business. When evaluating the performance of our business and making operating plans, we do not consider these items (for example, when considering the impact of equity award grants, we place a greater emphasis on overall stockholder dilution rather than the accounting charges associated with such grants). We believe it is useful to exclude these expenses in order to better understand the long-term performance of our core business and to facilitate comparison of our results to those of peer companies and over multiple periods.
